

LAB 05 - 30011

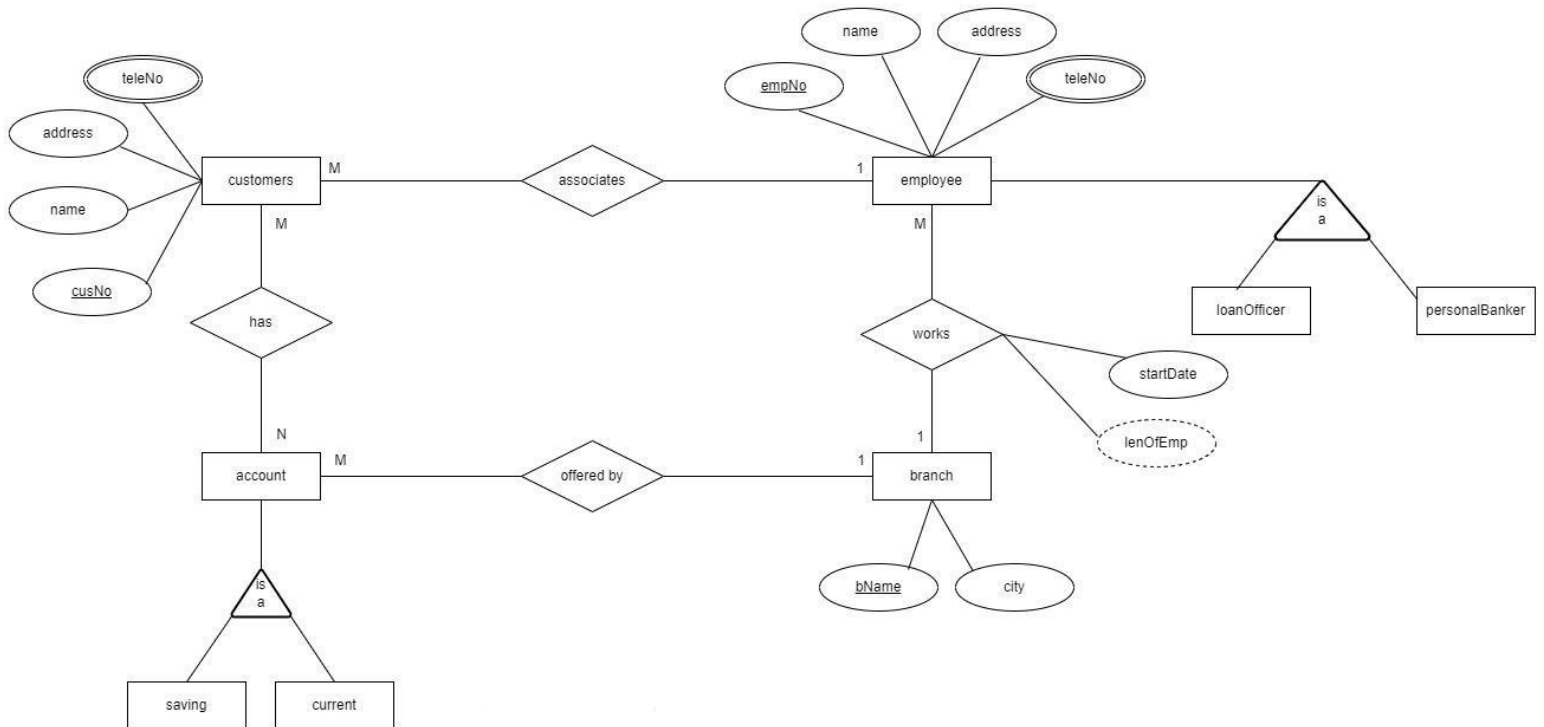

Question 01

Assumption:

- Tour Location has been assumed as a multi-value attribute.

Question 02

Assumption:

- A single branch can have many accounts, and only one bank offers one account.
- A branch may have several employees; one employee works for only one branch.
- An employee can be associated with numerous other employees, while a customer can only be associated with one employee.
